

AB380E

8" Fire Bell For Outdoor Use, 24Vdc

General

The AB380E is a 200 mm (8 inch) external bell designed as an acoustic fire annunciator. The AB380E uses a 24 VDC supply and with the advantage of having very low current consumption, makes them compatible with most fire alarm systems on the market

Applications

The AB380E is ideal for installing on any site, but are specifically good for installing on sites where a great number of bells are required. Because of the low current consumption, excessive power supplies can be avoided.

Construction

Designed for ease of installation, the AB380E features a robust steel gong. This ensures the reliable generation, of the universally recognizable fire alarm bell sound.

Details

- Suitable for outdoor use
- Slim profile
- Low current consumption - 20mA
- Quick and easy installation
- Diode polarised
- Low maintenance
- Very reliable
- EN54-3 Approved
- CPD compliant
