

EST-REG1

Volume Controller

- Volume controller is designed to control 100 V signal
- Maximum speaker / speaker group load is 40 W RMS

	Specifications
Input voltage	v
Maximum nominal load	40 W
The frequency range	v
Number of control levels	6
Output power level for each position	-∞, -20, -15, -10, -5, 0 dB
Voltage drive the alarm priority relay	18–26,5 V
Current consumption	10 mA
Operating temperature	0°C–40°C
Overall dimensions	80 mm × 150 mm × 65 mm
The size of the recess in the wall	75 mm × 150 mm × 50 mm

The diagram and connection of the volume controller
